

Position Title: Data Scientist

Location: Cambridge, MA

Company Description

Cognito Therapeutics, Inc. is a venture backed (Morningside Ventures) startup company translating scientific findings from MIT into therapeutic approaches for Alzheimer's disease and other neurodegenerative conditions. We were recently awarded a Breakthrough designation by the FDA. We are a fast moving, highly motivated team of people with the ambitious goal of helping the millions of Alzheimer's disease patients and caregivers around the world. With our patented gamma stimulation technology, we are committed to developing non-invasive device-based therapies.

Job Summary

We are looking for scientists and engineers to work with us on understanding, interpreting our data along with helping us to guide us for future studies. The ideal person will be highly motivated, have a strong technical background and programming skills and enthusiastic about working in a cross-functional team.

Qualifications

- Experience with organizing, processing, and analyzing large data sets
- Demonstratable experience in machine learning and statistical techniques
- Demonstrable experience with predictive modeling techniques
- Experience in writing reports
- Strong programming skills in R, SAS and/or Python
- Attention to detail

Good to have

- Experience with clinical or biomedical data

Educational Requirement

- BSc/MS/PhD in data science, statistics/biostatistics, applied mathematics or a similar field

To Apply

- Please send your application to acimenser@cognitotx.com. Thank you for your interest.
